REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The Declaration of David Mark filed 2/22/05 has been received. The declaration explains the difference between surface resistivity and volume resistance in terms of their units of measure. The declaration also states that the surface resistivity is dependent upon the topography of the substrate along with the metal coating and not on an inherent physical property (volume resistivity).

The examiner is convinced by the declaring party statements and have withdrawn the Sakurada et al. reference as applicable prior art. Thus, the previously indicated allowable claims and the claims which recite that the fabric has a surface resistance of less than 1000 ohms/cm² or a surface resistance of less than 1 ohms/in² are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kim M. Lewis whose telephone number is (571)272-4796. The examiner can normally be reached on Mondays to Thursdays from 5:30 am to 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Henry A. Bennett, can be reached on (571) 272-4791. The fax phone
